

BroilerCat

The CompostCat built
for a broiler house

Upgraded for broiler application:

- ✓ Auger rotation is changed to have more powerful hardpan cutting action
- ✓ Auger diameter is upgraded to 18" and added cut-outs for serrated action
- ✓ Auger motor has higher torque capacity options and is easier to service
- ✓ Collector head has angular rake adjustment to float over desired depth of litter
- ✓ Main conveyor has new higher speed as well as regular speed
- ✓ Hook and pin implement hook-up system allows quick exchange times
- ✓ Side conveyor relocates windrow to either side for fast windrow creation
- ✓ Spreader disk implement allows perfect litter redistribution in one pass
- ✓ Custom hydraulic solenoid block contains ability to fine tune speeds and options
